Electrical Panel Circuit Directory - Blank Template

Panel ID: _____ Location: _____ Revision: _____
System voltage / phases / wires: _____ Bus rating: _____ A
Main / upstream protection: _____ Source panel and circuit: _____
Evidence reference: _____ Prepared / checked by: _____

Circuit / position(s)	Load / served location	Poles	Phase(s)	Breaker rating (A)	Status	Notes / evidence

Sheet 1 of 2. Enter actual equipment identifiers; blank rows do not represent confirmed panel spaces. Group all positions of a multipole breaker in one record. Unknown is not spare. This directory does not calculate capacity.
